How much could you save?

Finding out how much of a subsidy you can get is simple.

In fact, we even have a tool you can use to estimate how much you may save. All you have to do is visit Ambetter.CoordinatedCareHealth.com/health-plans/subsidy-estimator.html and follow these easy steps:

STEP 1:
Click on the Subsidy Estimator.

STEP 2:
Share some basic household information.

STEP 3:
Fill out your enrollee information.

STEP 4:
Discover your estimated monthly premium.

STEP 5:
Call your Ambetter representative.

And don't worry. It's completely confidential.

So how much could you save?

Ambetter from Coordinated Care is a Qualified Health Plan issuer in the Washington Health Benefit Exchange and does not discriminate on the basis of race, color, national origin, disability, age, sex, gender identity, sexual orientation, or health status in the administration of the plan, including enrollment and benefit determinations. This is a solicitation for insurance.

* Standard message and data rates may apply. Reply STOP to opt-out. No purchase necessary. We'll text you a few times per month. Terms and Privacy: Ambetter.CoordinatedCareHealth.com

The subsidy calculator is designed to estimate federal premium assistance that may be available towards the cost of health insurance purchased directly by an individual (rather than through an employer). Using information you provide and the averages in the marketplace, it takes into account federal subsidies based on income, Medicaid eligibility, and other factors that impact premiums under the Affordable Care Act. This is only an estimate and not a guarantee. You must visit healthcare.gov for the most up-to-date calculation of your eligibility. Please refer to Ambetter from Coordinated Care's Privacy Policy: Ambetter.CoordinatedCareHealth.com.

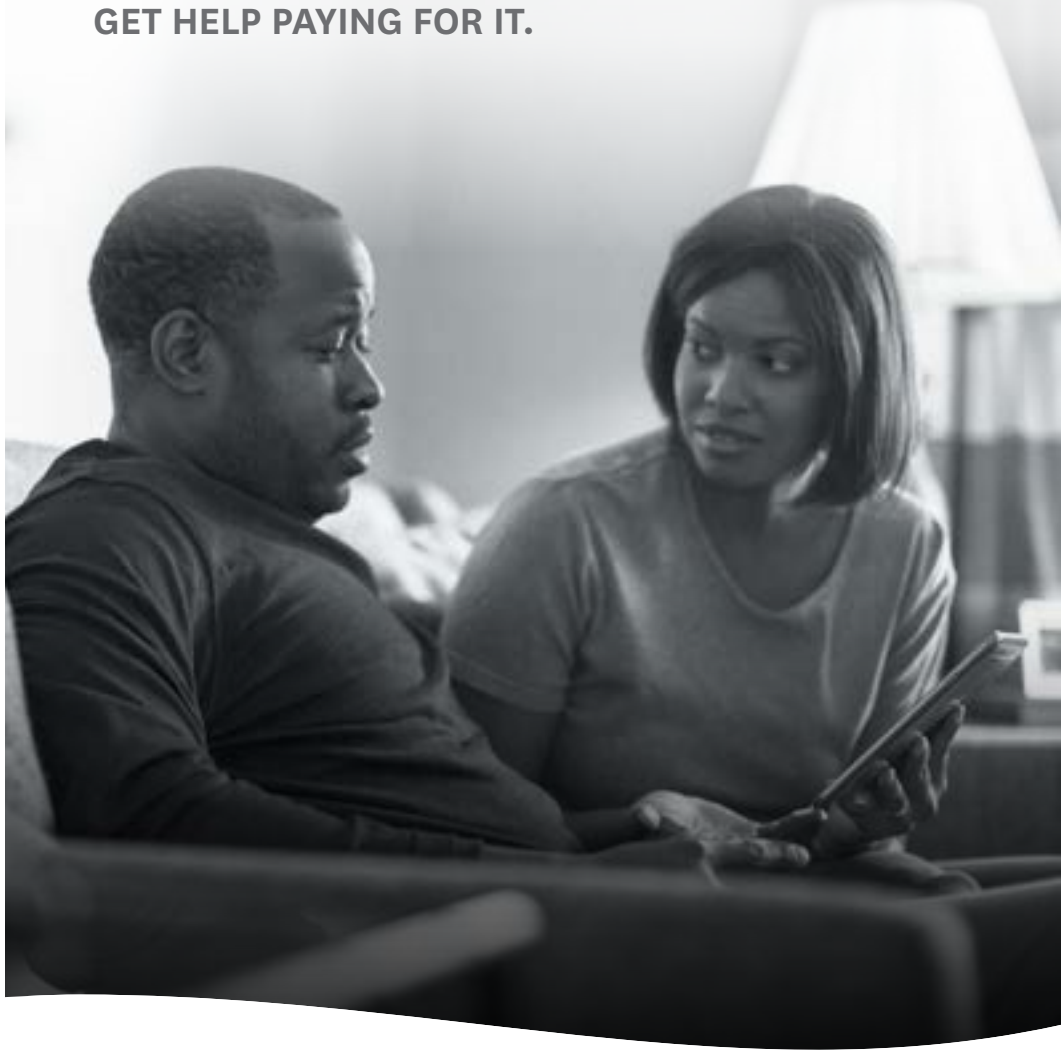
Your Health Insurance:

GET HELP PAYING FOR IT.



ambetter.™ FROM | coordinated care.™

Saving money starts here.

You deserve health insurance that fits your health needs and your budget. And with a Marketplace plan you may be able to get a healthcare subsidy. A subsidy is an amount of money, or tax credit, from the government. It helps lower your monthly premium. Let's take a closer look at how a subsidy works.

Example only. Based on your situation and the plan you select, your premium amount may be different.

Meet the Smith family.

They're shopping for a health insurance plan.

The Smiths make $36,375 per year, which means they are at **150%** of the Federal Poverty Level. So, they qualify for a subsidy.

Without their subsidy, the Smiths would have to pay $4,836

a year for an Ambetter Balanced Care (Silver) Plan.

Because of their subsidy, the Smith family only pays **$1,464**

a year for an Ambetter Balanced Care (Silver) Plan.

THE SMITHS **SAVE** ALMOST

$3,300*

a year

*actual savings $3,372

How much could you save?

Use the examples on the graph to find out how much of a subsidy you could get this year.

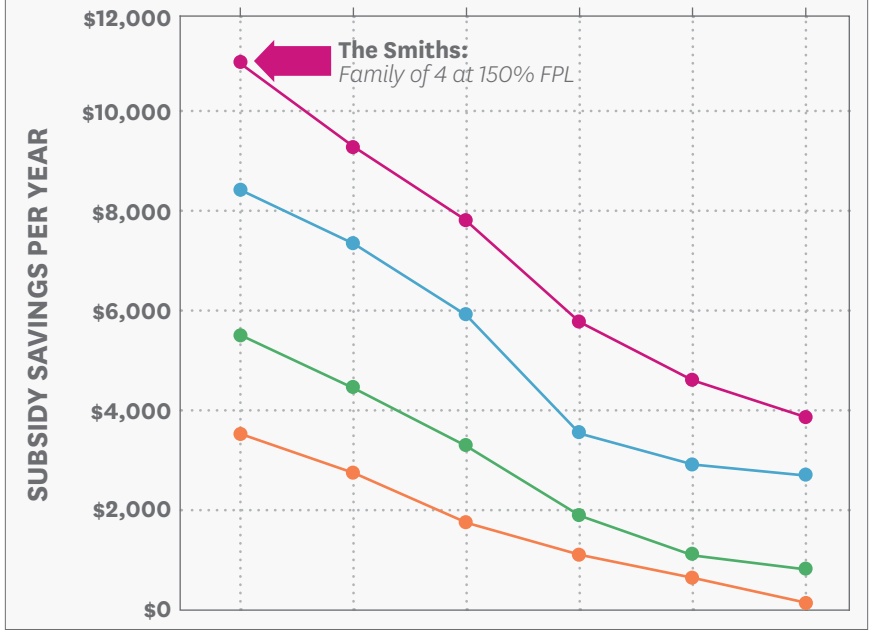
1. Look at the family situation that is most like yours.
2. Find the spot on the graph where your income and family size meet.

THIS IS THE ESTIMATED RANGE OF YOUR POSSIBLE SUBSIDY.

Range of Subsidies

FEDERAL POVERTY LEVEL (FPL)

	150%	200%	250%	300%	350%	400%
FAMILY OF FOUR[1]	$36,375	$48,500	$60,625	$72,750	$84,875	$97,000
FAMILY OF THREE[2]	$30,135	$40,180	$50,225	$60,270	$70,315	$80,360
FAMILY OF TWO[3]	$23,895	$31,860	$39,825	$47,790	$55,755	$63,720
SINGLE INDIVIDUAL[4]	$17,655	$23,540	$29,425	$35,310	$41,195	$47,080



[1]2 parents, 2 children; [2]1 parent, 2 children; [3]1 parent, 1 child, [4]single individual
